Your Excellency,

It is with deep pride that myself and my team Edward Fitzpatrick and Joseph Goba had the opportunity to meet and discuss with you our plans for iLamp Africa and the prospect of a pilot in Sierra Leone to advance light, communication, power and growth in our home country.

Firstly, allow me to thank you and your team for a vibrant and positive discussion, the professionalism of you team is outstanding, and I look forward to working with you and the rest of the team as we advance the discussions.

As requested I am including with this mail some additional copies of the presentation which has some further information regarding the technical specification at the back of the document.

We stand ready to follow up with whatever meetings, phone calls or correspondence you direct us to do so.

With deep appreciation, your faithfully,

Best regards,
