Dear Hon Jallahqueena,

It is with deep pride that myself, Edward Fitzpatrick and Joseph Goba had the opportunity to E-meet you and the Trade Advisor Mr. Sandy.

As discussed and agreed, the way forward is for us to have the following:

- Draft MOU
- Location for the pilot
- Data on any development plans for street light replacement and new sites. Municipal development such as hospitals, airports, commercial /housing developments.

After we receive the above, we will then incorporate the information in the paperwork and get an agreement for the next stage.

We are looking forward to working with you and the Government of Liberia to help build sustainable energy and employment opportunities to your beloved country.

Once more, thank you very much and hope to hear from you soon.

BW
